Indiana Trust Building

Reasons Why Its Office Rooms Are Desirable:

Pirst-Most prominent building in city.
Second-Perfect light-all rooms OUTSIDE.
Third-Two rapid-running elevators.
Fourth-Pire-proof vault room for each te Sixth-Every known modern improvement. Seventh-Pure water from company's well. Eighth-Restriction to certain lines of busine

A few more rooms can be had.

INDIANA TRUST COMPANY Washington St. and Virginia Ave.

THE L. A. KINSEY, CO. CAPITAL, \$25,000-FULL PAID.

Chicago Grain and Provisions, New York Stocks.

BRANCH-10 West Tenth St., Anderson, Ind. Long Distance Telephone, 1375. 11 and 13 WEST PEARL STREET.

LOWER RANGE OF PRICES

VARIOUS INFLUENCES CAUSED DE-CLINES IN THE RAILWAY LIST.

Industrials Were Also Weak and Suffered Losses-Local Markets Dull, with Several Declines.

At New York money on call was easy at 14/02 per cent.; last loan, 114. Prime mercantile paper, 5 per cent.

Sterling exchange steady with actual business in bankers' bills at \$4.83464.8814 for demand and \$4.8714 34.8714 for sixty days; posted rates, \$4.88@4.88% and \$4.89@4.89%; commercial bills, \$4.86%. Bar silver, 68%c; silver certificates, 69@

194c. At London bar silver closed at Total sales of stocks were 222,980 shares,

including the following: American Tobacco, 10,600; Atchison & Santa Fe, 2,300; American Sugar, 61,300; Burlington & Quincy, 16,400; Louisville & Nashville, 20,200; fissouri Pacific, 5,000; Pullman, 3,600; Rock

Island, 39,700; Western Union, 6,400. A variety of influences on New York Exchange contributed to bring about a lower range of share prices yesterday. Although nothing tangible was evolved out of the mass of rumors that obtained circulation in relation to the Cuban situation, enough uneasiness was created on this point and regarding other foreign political complications to start a brisk seiling movement all along the line. Local considerations of a depressing character were also in evidence. The engagement of \$750,000 in gold for shipment to Germany came in the light of a displeasing surprise and in the board room rumors were current of impending action by the President on the Cuban question based on alleged dispatches from the special representative of the United States now in that country. The pressure at the outset was directed chiefly against the industrials and was coincident with a display of firmness in the railway shares due partly to moderate purchases for foreign account, although the London prices for Americans had shown sharp declines from Saturday's closing figures. Tobacco broke 2 per cent. and other leading shares scored material losses which were, however, partly recovered in sympathy with the development of support in Tobacco and through covering of shorts in other directions. Tocco rallied 1% per cent. and subsequently oved in decidedly erratic fashion. I used at a net loss of 1% per cent. The ressure against Sugar was heavy and the tock reacted 3% per cent. to 118%, under tree offerings of long stock, induced by pliapse in European beet and other sugars, which in turn led to sharp reductions in the efined grades of the domestic product. A sading bear operator was conspicuous in ammering the stock and traders were discounted to make ventures on the short side. ed to make ventures on the short side but at times covering purchases caused fractional improvements. The railway shares were pounded fiercely in the late session, particular efforts being made against the grangers, Louisville & Nashville and Southwestern. Stop-loss orders were uncovered and this gave further im-

were uncovered and this gave further impetus to the downward movement and started liquidation in various properties. The coalers yielded in common with the general market, but the concessions were mainly fractional, the group being sustained by the prospective advance in coal prices July I. Foreign arbitrage houses were sellers of the principal international stocks on a scale-down and some increase in commission-house offerings was discernfible towards the close. The losses in the railway group extended to 2½ per cent. In Kansas & Texas preferred. Other noteworthy declines were: Burlington and Louisville & Nashville, 2½; St. Paul, Pacific Mail, Leather preferred and Consolidated Gas. 1½; Missouri Pacific, 1½ and Atchison preferred. Tennessee Ccal, Lake Erie & Western preferred and Bay State Gas, 1½ per cent. The closing was weak at about the lowest of the day.

Railway and miscellaneous issues ruled sharply lower with material concessions in some of the inactive mortgages. The sales

ne of the inactive mortgages. The sales were \$874,000. The more important losses extended to 3 per cent. in Hocking Valley

Government bonds were quiet and irreg-ular. The dealings were \$50,000. The fours were a fraction higher and the new fours a

LOCAL GRAIN AND PRODUCE. Frade Opens the Week Rather Quiet-Poultry Higher and Sugars Lower. Trade opened dull in most lines yesterday Sugars declined 1-16c in the forencon and another 14c in the afternoon. Other staple gro certes were steady. Changes will be noted in leather. Dry goods houses had a quiet day and grocers were not specially busy. Receipts of poultry lighter, with prices higher for young chickens. Eggs and butter are steady. The provision market is fairly active. Prices have taken on a more steady tone. Hay and flour markets are both weak. Little is doing in wool, most of the new clip having now been sold.

The local grain market is dull, dealers an shippers moving cautiously. Wheat went off 4 and corn advanced 4c. Track bids ruled as for lows:
Wheat—No. 2 red, 59c; new, to arrive, 56%c;
No. 3 red, 54656c; wagon wheat, 58c.
Corn—No. 1 white, 28½c; No. 2 white, 28½c;
No. 3 white, 28½c; No. 2 white mixed, 27c; No. 3 white mixed, 27½c; No. 2 yellow, 27½c; No. 3 yellow, 27½c; No. 2 mixed, 27½c; No. 3 mixed, 27½c;

ear corn, 25%c.

Onte-No. 2 white, 20%c; No. 3 white, 19%c; No. 2 mixed, 18%c; No. 3 mixed, 17%c, Hay-No. 1 timothy, \$12@12.50; No. 2 timothy, \$10@11; prairie, \$569. Poultry and Other Produce.

(Prices paid by shippers.) Poultry—Hens, 7c; springs, 1896, 12c; cocks c; tarkey hens, 8c; toms, 6½c; old toms, 5c lucks, 6c; grese, 4c. Butter-Country, 466c; choice, 768c. Eggs-Shippers paying 7½c for fresh stock. Wool-Medium washed, 12c; fine merino, washed, 10c; tub-washed, 20@23c; burry and un-merchantable, 5c less. Honey-16@18c per lb.

Beeswax-20c for yellow: 15c for dark.

NEW WHEAT DELIVERED

BREAKS CHICAGO MARKET AND SEPTEMBER GOES OFF 1 1-8C.

Corn and Oats Made Fractional De clines and Provisions Became Weaker, Losing 507 1-26.

CHICAGO, June 22.-Wheat got a declining start to-day, and nothing occurred to better it. The last straw to break the back of a weak market was a telegram from Topeka, Kan., saying: "Twenty-four loads of new wheat received at the Capital elevator to-day." Compared with Saturday's closing prices, September left off 11/c lower. Corn and oats declined ic each. Provisions closed at a loss for the day of 5c in pork and ribs and from .05c to .071/2c in lard.

The wheat market did not exhibit any particular life in activity; in fact, was inclined to duliness at times, the range for the day being 1@1%c. Operations were chiefly local, and traders apparently were rather "bearish" in their views from the start. Prices were influenced at the start by the heavy arrivals in the Northwest and New York advices that the world's shipments would be heavy, private reports making the same 9,200,000 bu. Withdrawals from store were light, and early reports of a decrease in the visible disappointing and had more or less influence. Commission houses had selling orders, and there was more liquidation of July, the spread between that future and September widening to 1½c. Private authorities put the Black sea shipments at 5,032,000 bu. The market had a fair rally on the posting of the on-passage figures, the same showing a heavy decrease of 3,200,000 bu, and proving quite a surprise. The same was accounted for in a measure by the liberal importations of late by Italy. Another stimulating factor was the comparatively steady tone of cables, early public advices quoting Liverpool steady and untively steady tone of cables, early public advices quoting Liverpool steady and unchanged and private cables stating the market a turn dearer, with holders more confident. The visible decreased, but 667,000 bu, against 1,492,000 bu for the same week in 1895. This was very disappointing, and the decline which followed carried prices to the lowest point of the day. September opened irregular and %6%c low-September opened irregular and %6%c lower, at 57%6584c, declined to 57%c, advanced to 584c, then declined to 57%c, closing easy and 1%c lower at 57%c.

Corn was quiet. After the opening weakness, which was caused principally by sympathy with wheat, prices held comparatively steady until the large estimated received for to morrow were posted. This

ceipts for to-morrow were posted. This proved too much, and prices suffered a further decline; September opened %c lower. at 29%c, touched 28%c, and closed easy at Oats—Business was fairly active and values were lower all around. There was quite a selling pressure apparent, and that, with the weakness of wheat and corn, were the causes for the decline; July sold were the causes for the decline; July sold lower than ever known before, touching 16%c; September opened %c lower, at 17%c.

Provisions suffered from the surprisingly large run of hogs. Prices recovered somewhat later on the small estimates for tomorrow, but the losses for the day were quite material. September pork closed 5c lower at \$7.15; September lard closed .05@ .07%c lower, at 4.17%c4.20c; September ribs .05c lower, at 3.87%c.

Estimates for Tuesday—Wheat, 30 cars; corn, 575 cars; oats, 500 cars; hogs, 15,000 head.

Hogs active. Prime light weights, \$3.6563.70; best medium grades, \$3.6063.65; heavy hogs, \$3.15

Sheep-Supply fair. Market unchanged. CINCINNATI, June 22.—Hogs active at \$2.85@ .45; receipts, 3,900; shipments, 600. Cattle dull and lower at \$2.35@4; receipts, 1,500; Sheep steady at \$1.75@3.50; receipts, 2.500; ship-

Mrs. Wickes Ford Secures a Divorce ST. LOUIS, June 22.—Judge Valliant to-day granted a divorce to Florence Lillian Wickes Ford, daughter of Thomas H. Wickes, vice president of the Pullman Palace-car Company, from George Oliver Ford. The petition set forth that on Feb. 22, 1895, the Gefendant deserted his wife. Ford made no defense.

SAND FILTER ORDERED

BOARD OF HEALTH AND BOARD OF WORKS COMMIT THE CITY.

Without Taking Time to Investigate, the System in Use at Lawrence. Mass., Is Adopted.

Mayor Taggart said some days ago that

pefore the city took any decided stand as

to what the water corapany should do to provide safe and sure means for furnishing pure water it would be ascertained whether nechanical or sand-bed filters were the better and cheaper. On this question there is a vast difference of opinion, Allen Hazen and other advocates of sand-bed filtration insisting that that method is the best now in use in the world, and that the cost of operation in the long run is much less than that of mechanical filters, where there is a constant expense in purchasing alum, which is used as a coagulent. For the purocse of obtaining accurate and reliable information as to the best and most modern methods of purifying water. Mayor Taggart said that expert water engineers would be invited to come here, canvass the situation and then suggest what the city had better do. But this plan was not followed, and the city, through the action of the Mayor, the Board of Health and the Board of Publie Works, stands committed to sand filtration. These officials held a consultation yesterday, when Dr. Ferguson, secretary of the Board of Health, presented a communication, outlining a plan to be pursued by the water company. The communication said that the Board of Health was unble to estimate the amount of water taken from the river daily, but unhesitatingly condemned the crib or filter through which the water is drawn. Then the letter read: "We recommend that the water company,

in compliance with their promise to the Mayor and Boards of Public Works and Health, be required to construct immediately a system of modern sand filtration, with a capacity equal to the efficient filtration of the quantity of river water which may be found necessary to take from the river be found necessary to take from the river. The board cannot indorse any system of filtration which permits a greater rate of filtration than two and one-half millions of gallons of water per acre in twenty-four hours, nor can it approve any system which does not permit easy access to the filter bed for proper cleaning. There must be such regulation of the water supplied to the filter as to maintain a constant water level upon the bed of the filter. The filter must provide for such efficiency as will furnish a water answering all the tests quired by a potable water. The engin-ring problem involved in these improve-ents is not within the province of this

"The board recommends the construction of a filter upon the plan of the Lawrence (Mass.) plant, which is fully described in the reports of the Massachusetts Board of

"The board cannot approve the present storage gallery of the water company, and asks that in the contemplated improve-ments by the management they be comcelled to construct water-tight covered eservoirs for the reception of the well and iltered water."

The plan submitted above is intended to

afford temporary relief and was at once sent to Mr. Davis. None of the city offi-cials claim to know just what it will cost the water company to make these temporary arrangements, but it is conceded that it will approximate \$200,000. Drs. Ferguson and Hurty expect to visit the Lawrence experimental station next month, and will also see some of the mechanical filters. will also see some of the mechanical filters at work, among them that at Providence. R. I., erected under the directions of Dr. G. T. Schwartz, secretary of the State Board of Health of Rhode Island, which was selected as preferable, after the city of Providence had expended \$10,000 in making experiments. They both seem inclined to think that sand-bed illters will be recommended when it comes to the subject of permanent improvements. If some other should be decided upon, and the city should afterwards decide to purchase the plant.

should be decided upon, and the city should afterwards decide to purchase the plant, there would be an additional expense of \$200,000, for the sake of temporary relief, which cannot become available in less than three or four months, and which would have been as soon forthcoming if Mayor Taggart had followed his intentions as first expressed. The delay of a week or ten days until something definite could be learned on the subject from those competent to speak would not have entailed any additional danger to the city.

When asked why he favored the method suggested Dr. Ferguson said it was because sand filtration was the oldest system and was regarded as the best and cheapest, All he knew about the question, he said, was from what he had read on the subject. Dr. Hurty said that the results obtained from sand filtration and by mechanical means were equally good, but sults obtained from sand filtration and by mechanical means were equally good, but that the latter was generally regarded as dearer, on account of the expense in buying alum. This was the reason, he said, the vice president of the water company favored sand beds. No system of filtration can be relied upon. Dr. Hurty says, unless it is under the constant management of an expert chemist, who must make daily analyses becteriological and chemical to deexpert chemist, who must make daily analyses, bacteriological and chemical, to determine whether the water is being properly purified. He says that the work of constructing filters like those described in the reports of the Massachusetts Board of Health can be done by any engineer. Both he and Dr. Ferguson seem to think that the water company could not do better than to employ Allen Hazen, as he was connected with the Lawrence experimental station and has abundant knowledge. A filter of the kind they recommend consists combed with common red tile. Above this is to be placed layers of coarse gravel, topped by fine gravel and coarse sand, with a top coat of fine sand. The whole bed is to be about five feet in depth. To the best results the water must stand on this bed at a uniform depth, and must not be drawn off more rapidly than it is re-

Mr. Davis was busy yesterday with the United States court and with the County Board of Review, and had not had time to reply to the letter of the Board of Public works indorsing the plan of the Board of Health and directing him to follow it.

CONTRACTS AND ROUTINE.

Bids on a Main Sewer in Garden Street-Resolutions Adopted. The Board of Works yesterday opened sealed proposals for the following improve-

For cement sidewalks on East street, from Ohio street to Massachusetts avenue-Henry Maag, seven-foot walks 93 cents, three-foot walks 29 cents, sodding 22 cents; Davidson & Lingenfelter, sevenfoot walks 90% cents, three-foot 36% cents, sodding 16 cents; C. S. Niemier, seven-foot walks 891/2 cents, three-foot 26 cents, sodling 141/2 cents. The contract was award-

ed to Niemier. For a main sewer in Garden street from lenate avenue to Illinois street, with branches-Daniel Foley's bid was \$1.80, Gansberg & Roney \$1.63, William Bossert \$1.67, Sheehan Bros. \$1.57, Indiana Construction Company \$1.55. The contract was awarded to the Indiana Construction Com-

For a local sewer on the north lawn of Vermont street from Massachusetts avenue to New Jersey street-Daniel Foley \$1.56, Shechan Bros. \$1.04. The latter firm was awarded the contract.

The board took final action on the following improvements:

For the improvement of the sidewalks of Twenty-second street, from Capitol avenue to Central avenue. For the improvement of Sterling street, rom Stoughton street to Orange avenue.

For the improvement of Windsor street from Stoughton street to Orange avenue.

For the improvement of Orange avenue.

For the improvement of Orange avenue from Keystone avenue to Pogue's run.

For the improvement of Twenty-sixth street, from Northwestern avenue to the nstrances were filed against any The board allowed final estimates for

improvements as follows: In behalf of B. Porter, for cement sidewalks on Walnut street, from Senate avenue to West street, cost \$1,231.65, and for cement sidewalks on Indiana avenue from Ohio street to Capitol avenue, cost \$334.51.

The following improvement resolutions were adopted: were adopted:
For asphalt roadway on Walnut street from Capitol avenue to Senate avenue.
For gravel roadway and cement sidewalks on Thirty-first street, from Illinois street to Meridian street.
For gravel roadway and cement sidewalks on Thirty-first street, from Senate avenue to Illinois street, and on Thirty-

ond street from Illinois street to Se The city engineer was instructed to pre pare papers for bricking the first alle-east of Meridian street from Fifth to see east of Meridian street from Fifth to see that street.

W. H. Tielking was awarded the contract for lowering the bridge over the contract for lowering the bridge over the contract from the Belt ratiroad to Raymond street, the contract having been awarded to the Indiana Bermudez Asphalt Company upon the theory that no grading would have to be done. The company was released from its contract when it was discovered otherwise and readvertisements were ordered.

Too Busy with Polities. City Attorney Curtis has not yet preared the ordinance requiring all telephone and telegraph companies to use one trench in common when the work of lowering their wires begins. He says that it will probably be two or three days before anything is done. Just now the city officials are deeply interested in politics and it is said that nothing of importance will be done until after the convention.

Municipal Notes. The Board of Public Safety will probably hear the charges preferred by Mrs. George K. Schoffeld against Superintendent Colbert to-morrow night instead of Thurs-

The Council committee on public safety and comfort will hold a meeting next Monday night to consider the ordinance introduced by President Costello, giving the Board of Public Works power to take steps to prevent pollution of all streams running through the city and within a radius of ten miles. The Council committee on public safety

Original widows, etc.—Minor of Joseph Wright, Tollandsburg: minors of Willia Day, Nashville; Minerva Harris, Laurel

Condemned Murderer Escapes ST. LOUIS, June 22.—Noble Shepard, was waiting execution in jail here for murder of Thomas Morton and L Leahy, escaped from his cell some time tween midnight and 4 o'clock this more crawled some twenty feet through a seclimbed to the roof of the gallows on who was to have thence to the might he was to hang, thence to the high brick wall sourrounding the fall yard and then to the street. There is no doubt but that he was aided by friends on the outside, and the fail authorities and the police are trying to unravel the mystery of the escape.

Tennessee's Gift to Nebraska. KNOXVILLE, Tenn., June 22.-Inter ing exercises were held in the room of the Chamber of Commerce here this morning, when the people of Knox county presented to the State of Nebraska a block of Tennessee marble, to be presented by Governor Turney to the State of Nebraska for the purpose of creeting a monument in Lincoln in memory of Abraham Lincoln. The presentation speech was made by I Parker, of Knoxville, and was responde to on behalf of the State by Adjutan general. Sykes, of Nashville.

Out of Pocket.

Washington Post. It looks as if Quay would not be reim-bursed for the money be invested in cam-paign buttons and lithographs.
